

TRANSLATION OF EVELIN'S LETTER

July 2017

Members of the Second Congregational Church

Dear Sponsors:

Hello! I hope you are all doing well. I am very happy be a graduate from PAI, my family is also happy for me.

Thank you for your support all these years, it was a very important part of my education.

This year there were fun events but I enjoyed the Mothers' Day Festival the most because I participated in 2 dance presentations with my classmates; it was great and our Dance teacher congratulated us for our effort.

At Panamerican Institute, my teachers taught me many life lessons I will apply from now on. I know that everything I learned here during the classes will be very helpful for my future and for Preparatory School.

I want to study Social Studies at Preparatory school to prepare myself for Law classes at the University. I also want to get a job to help pay for my school expenses, your support for my first semester is much appreciated.

During this break I want to go to the beach in Rosarito with my mom and little brother because I barely spend time with them during the school year; I also want to go camping with my family because I have never been camping and I think it will be very fun.

I hope that next school year you continue helping Panamerican Institute with another student.

With love,
Evelin Cuevas
